Section 1: EIO Observatory

European Observatory on EIO

A European Observatory is developed and deployed for encouraging Best Practices purposed (WP4) and raising the awareness for all target groups and society. At this aim, experts and professionals within and outside the initial Consortium will be engaged in a debate through the generation of the European Observatory of the EIO implementation focused on the enhancement of coordination initiatives on criminal matters across the EU. Among other activities foreseen, the European Observatory of the EIO in criminal matters aims to become a European platform not only for raising awareness and knowledge transfer, but also a reference site for Member States to get support and tools to adopt practices and procedures supporting the implementation of the mentioned Order.

EIO Observatory is designed to be active also after formal closing of the EUROCOORD project.
